

# Recruit the right people for your business

# Progress to Success

## Train...

Recruitment can be expensive, so you need to know that you're getting people with the right skills and knowledge that your business needs.

By taking time to get to know you and your business and what you're looking for, TNG can tailor services to meet your exact recruitment needs. An experienced recruitment team can advise on your business needs and you can even use TNG facilities to interview potential candidates. Most candidates are ready for work now, with no notice period, and we will only put forward people to you who we feel are up to the job.

You can find the solutions to your recruitment needs as TNG can provide help with CV sifting, arranging interviews and job matching training. A thorough history check, including CRB, (if required for the job role), can be run on all successful candidates.

We invest time and resources into every person. We help to ensure that they have the personal qualities, skills and motivation employers need. We offer jobseekers a range of support from training, work experience and mentoring through to helping them organise childcare and funding their travel expenses in the first few weeks of starting work.

## Succeed...

You will feel like you have an additional pair of HR hands, saving you both time and money, giving you more time to focus on the other demands of your business.

Pre-screening and pre-interviewing of candidates ensures that they match your requirements. Customised pre-recruitment courses for potential candidates make sure they have the personal qualities, skills and motivation that you need to develop an efficient workforce. Ultimately this results in greater productivity and profitability for your business.

An after-care service extends to both you and your new employee. You'll gain professional support on the future needs of your business.
