

Warehousing and Storage

**Progress
to
Success**

Train...

The tight health and safety regulations that are in place for individuals working within the Warehouse and Storage industry means employees require an overall understanding of not only the job at hand but an awareness of their wider working environment.

This qualification is suitable for individuals who undertake varied warehousing, storage and logistics activities. The work based programme will enable individuals to develop new skills as well as gaining a nationally recognised qualification and will provide them with a better understanding of their role.

Succeed...

With rigid health and safety regulations in place, you can be sure that your employees have the qualifications they need to do their job in a safe environment. The course is flexible in that alongside the mandatory units, you can choose from a variety of optional units to build a programme which delivers the specific skills and knowledge your staff need.

The skills of your employees will be enhanced, thereby contributing to the improvement of performance in the workplace and by encouraging employees to develop through training, you'll encourage employee loyalty and aid retention.

Who is the course for?

This qualification is for those working in the Warehousing and Storage industry. They must show a sufficient level of competence to complete two mandatory units and six optional units.

What are the entry requirements?

There are no formal entry requirements, but candidates must be in a suitable job role which enables them to collect the evidence necessary to prove competence.

Units available

Mandatory:

- Maintain health, safety and security in logistics operations
- Develop effective working relationships with colleagues in logistics operations

Optional, including:

- Provide customers with information and advice on goods and services
- Operate equipment to perform work requirements
- Move good in logistics facilities
- Place goods in storage
- Process orders for dispatch to customers
- Dispatch goods for delivery

How is the course assessed?

By assessed portfolio of evidence. Evidence to be collected will include: workplace observations, witness testimonies, work product, oral and written questions, professional discussion and candidate explanation and other supplementary evidence.

Interview requirements?

Candidates will have the opportunity to complete an Experience Profile which outlines previous knowledge and learning. This information is used to identify suitable units for the candidate and the evidence is used to accelerate course progression.
